

Jon

*Jon loves being in his garden
Taking things nice and slow
But when it comes to plants
With a touch he makes them grow!*

Jon eats, sleeps and breathes gardening, and is at his happiest when digging in his vegetable patch. Wise, funny, thoughtful and well-grounded, Jon is the big brother of the bunch, but he doesn't take things too seriously. Jon can make plants and trees grow with just a touch, and has the strength of someone five times his size, which is useful when there are things to be dug, or friends to be rescued!
