

Jo

*Jo looks after the water
She brings raindrops with a blink
She keeps the rivers flowing
and the water clean to drink*

Everyone needs an older sister like Jo, practical, understanding and full of good advice. The second oldest in the family, Jo has grace, poise a considerate, likeable nature, and always knows what to do in any situation. She is level headed and measured and brings a zen-like clarity when chaos is all around. A calming influence when a balanced perspective is required, Jo's special powers include her ability to bring rain with just a blink of her eyes and cleaning water with just a touch, but she's not too old to not like jumping in puddles! Jo acts as mum at home, making sure that everyone has finished their chores before rushing off to have fun, but in the kind of way that they don't notice they're being bossed around!
